DETAILED ACTION

Allowable Subject Matter

1. Claims 1-29, 51-79, are allowed.

The following is an examiners statement of reasons for allowance:

Regarding claims 1, 6, 9, 12, 51, 62, 70, the present application teaches an automated user notification system/method/apparatus for monitoring user items and notifying a user when selected conditions occur. A first portion of the notification system comprises a network operations center (NOC). The NOC stores user information about one or more user items and is further coupled to a plurality of communication devices that can automatically contact a user. A second portion of the notification system comprises at least one detector. The detector monitors one or more user items and provides efficiently encoded information regarding selected conditions of the user items to the NOC via a communication link. After the information is received and decoded by the

NOC, the NOC automatically matches the received information to information stored at the NOC to determine if a condition exists about which the user should be notified as specifically mentioned on claims 1, 12, 20, 51, 62, 70.

The closest prior art such as Hoffman (US Publication 2004/0014478 A1) teaches a signaling system is provided for rendering an alarm for an individual in distress combined with a locating and tracking system to thus alert and direct appropriate personnel to the needs of the individual in distress and to monitor the location of that individual. The system comprises a portable signaling unit, a remote alarm switch device, a central dispatch station, and makes use of a wireless communication system. The portable signaling unit and the remote alarm switch may be adapted to be worn at different locations on the person's body. The remote alarm switch may be concealed in the form of a wristband or in the form of any other object such as a broach, pendant, or keychain. Hoffman fails to teach obtaining a first type and status data, a second type

of status data, and a third type of status data as specifically mentioned on claims 1,12, 20, 51, 62, 70.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled " Comments on Statement of Reasons for Allowance."
